Summary

Final year Integrated PG student at **ABV-IIITM Gwalior** focused on **backend engineering**, **distributed systems**, and **scalable payments infrastructure**. Strong **CS fundamentals** in **DSA**, **OOP**, **DBMS**, **OS**, **CN**, with experience building **reliable APIs**, production Python services, and high-availability backend systems.

Education

Atal Bihari Vajpayee Indian Institute of Information Technology and Management, Gwalior

Nov 2022 – Jun 2027

Integrated Post Graduate in Information Technology (8.26 CGPA)

Madhya Pradesh, India

Shri Raghukul Vidyapeeth

Apr 2021 – May 2022

CBSE - Class XII (96%)

Uttar Pradesh, India

Technical Skills

Languages: Python, C, C++, Go/Golang, TypeScript, JavaScript, SQL

Core CS: OOP, Data Structures & Algorithms, DBMS, OS, Computer Networks (TCP/IP), Software Engineering

Backend & Distributed Systems: Distributed Systems, Microservices, REST APIs, API Integrations, Business Logic Design, Functional Programming Concepts

Reliability & Performance: High-Availability Systems, Fault Tolerance, Low-Latency Optimization, Performance Profiling, Caching, Load Balancing

Backend Stack: FastAPI, Node.js, Express.js, PostgreSQL, MongoDB, DynamoDB, Supabase

Cloud/DevOps: AWS (EC2, S3, Lambda, API Gateway), Docker, Kubernetes, Terraform, Helm, CI/CD

Core Competencies: System Design, Scalable Architecture, SDLC, Agile, Debugging & Testing

Experience

Software Development Engineer Intern

May 2026 – July 2026

TVS Credit Services

On-site - Chennai

- Architected scalable **Python** backend pipelines with **NLP/OCR**, automating high-volume financial transaction workflows for **25,000+** daily records; improved extraction accuracy by **40%** through robust preprocessing and validation.
- Built modular **business-logic** validation frameworks for credit-risk scoring, enabling flexible rule execution, automated anomaly checks, and reconciliation-style validation; reduced manual effort by **30%** at NBFC scale.
- Deployed **fault-tolerant** backend services in an **Agile** team, focusing on reliability, performance profiling, error handling, and scalable data processing; improved risk-assessment reliability by **15%**.

Full Stack Developer Intern

July 2024 – Oct 2024

DMD Solutions

Remote - Lucknow

- Designed scalable **REST APIs** using **Node.js**, **React.js**, and **PostgreSQL**, implementing backend business logic, authentication-ready flows, and optimized queries for **1,000+** daily API requests with **35%** faster responsiveness.
- Deployed **fault-tolerant AWS** infrastructure via **Agile SDLC** and **CI/CD**, improving deployment reliability, observability, and high-concurrency handling while sustaining **99.9%** uptime.

Projects

Structural Balance Contrastive Learning Framework [GitHub](#)

May 2025 – Aug 2025

- Engineered a **distributed PyTorch/DGL** framework for signed financial networks, modeling trust-distrust relations for fraud/risk intelligence, anomaly-aware graph learning, and fault-tolerant training at scale.
- Achieved **97.33% Binary F1** and **94.93% Macro F1** on **Bitcoin-OTC**, outperforming baselines by **12%**; validated robustness under noisy edge perturbations with peak stability at **20% edge-drop**.

Voib — Low-Latency Media Streaming Platform [GitHub](#)

Mar 2024

- Architected a scalable backend using **Next.js**, **TypeScript**, and **Supabase**; integrated **Stripe** payment APIs, subscription business logic, user authentication, and merchant-style billing workflows.
- Optimized backend queries, rendering paths, and deployment workflows, cutting latency by **40%**; accelerated releases by **20%** through **CI/CD**, performance tuning, and reliable API-driven delivery.

Achievements & Leadership

- Open Source (Kornia):** Merged **2 PRs** into **Kornia** (10K+ stars), fixing a **PyTorch broadcasting bug (#3388)** and adding **RandomAffine support (#3391)**; contributed **unit/regression tests** and addressed **code reviews**.
- Hackathons:** 2nd Runner-up in **TVS Credit E.P.I.C 7.0**, Semi-Finalist in **Flipkart Grid 7.0**; **Top-300** Amazon HackOn 6.0, **Top-150** TenzorX AI Hackathon.
- Leadership:** Technical Lead, IEEE IIIT Gwalior; led a **10-member** team to build event-management platforms supporting **500+** users. **SAC Executive** for **10+** campus events serving **1,000+** students.
- Problem Solving & Academics:** Solved **600+** DSA problems; LeetCode Weekly ranks: **678** (WC 463), **1291** (WC 462), **1599** (WC 466); secured **98.83 percentile** in JEE Mains.
